Expanded course description:

Statement of Purpose: The purpose of this course is to assist students in acquiring a critical overview of the accounting process and a broad understanding of the role of accounting in modern society. Special attention is devoted to: 1) the financial statements prepared for use by those outside the enterprise and how those statements contribute to financial decisions and capital markets, and 2) internal information reports prepared by managerial accountants for use by those within the enterprise and how those reports affect managers' day to day and long term decisions.

Specific Learning Objectives: This course is designed to help you understand why managers need to know about accounting. In particular, the course is designed to allow you to gain knowledge, insights, and analytical skills related to the basic language of accounting and some of the basic techniques. This course is aimed at achieving two objectives:

- to develop an understanding of essential accounting language and basic financial decision-making techniques needed by managers, and
- to give to each student the opportunity to acquire and improve critical skills for future career success by working on assignments involving
 - a) integrative problem-solving skills,
 - b) analytical skills,
 - c) communication skills,
 - d) ability to work in a team, and
 - e) understanding how a real business function,

Academic honesty and integrity

In this course, we strive to maintain academic integrity to the highest extent possible. Please familiarize yourself with the meaning of academic integrity by completing SPARK's [Academic Integrity module](#) at the beginning of the course. Breaches of academic integrity range from cheating to plagiarism (i.e., the improper crediting of another's work, the representation of another's ideas as your own, etc.). All instances of academic dishonesty in this course will be reported to the appropriate university authorities, and can be punishable according to the [Senate Policy on Academic Honesty](#).

Turnitin

To promote academic integrity in this course, students will be normally required to submit their written assignments to Turnitin (via the course Moodle) for a review of textual similarity and the detection of possible plagiarism. In so doing, students will allow their material to be included as source documents in the Turnitin.com reference database, where they will be used only for the purpose of detecting plagiarism. The terms that apply to the University's use of the Turnitin service are described on the Turnitin.com website.

Online proctoring

This course requires the use of online proctoring for examinations. The instructor may use an online proctoring service to deliver the exam(s), which would be administered through the Learning Management System (Moodle). Students are required to have access to minimum technology requirements to complete examinations. If an online proctoring service is used, students will need to become familiar with it at least five days before exam(s). For technology requirements, Frequently Asked Questions (FAQs) and details about the online proctoring service, please visit the [Registrar's Office's page on online exam proctoring](#). Students are required to share any IT accommodation needs with the instructor as soon as they are able.
