

**Course Outline**  
**Economics AS/ECON 2350 3.0**  
**Intermediate Microeconomic Theory II**

**Instructor:** Alla Lileeva

**Office hours:** by appointment

**Class Time:** Winter Term, Tuesdays, 4-7 PM

**Location:** Online (link on e-class)

**Course Description**

The purpose of the course is to introduce standard tools of microeconomic analysis and their applications. The topics include behavior of perfectly competitive firm, monopoly, oligopoly, market imperfections, as well as introduction into game theory and general equilibrium welfare economics.

**Required Readings:**

*Intermediate Microeconomics: A Modern Approach with Calculus*, 1st Edition, W.W. Norton & Company, 2014.

Hal R. Varian,

ISBN 0-393-97830-3 / 2002

**Assessment:**

Mid-term exam 40% February, 23

Final exam 60% TBA

Bonus marks can be earned for active verbal class participation.

Assignments will be posted for practice but will not be graded.

**Missed Tests:** There will be no make-up midterm test. For students who miss the midterm test, the weight of the midterm will be added to the final exam. Students who miss the final exam will be given an option to write the deferred exam after the official exam period.

**Grading:** The grading scheme for the course conforms to the 9-point grading system used in undergraduate programs at York (e.g., A+ = 9, A = 8, B+ = 7, C+ = 5, etc.). Tests will bear either a letter grade designation or a corresponding number grade (e.g. A+ = 90 to 100, A = 80 to 90, B+ = 75 to 79, etc.) (For a full description of York grading system see the York University Undergraduate Calendar.)
