Description of course evaluation components:

1) Short essay: A list of current topics in occupational health and safety will be provided. Students are asked to choose a topic from the list that interests them and write a maximum 2000 word essay on the subject. The essay should clarify the following: 1) why is the topic important or of interest?, 2) what are the latest research and/or legislations suggesting in relevance to the topic?, and 3) what are the future challenges on the topic that HR professionals/researchers/legislators should address? While the essay should be based on solid research, referenced in APA style format, students are encouraged to have a critical lens and add their own unique perspectives. The short essay is due on **JUNE 3**.

2) OHS Report: The objective of this assignment is to encourage students to stay up-to-date on relevant OHS issues covered by the media. For this purpose, select an incident relevant to OHS issues in Canada (Preferably Ontario), covered by print/online news media within the last five years. Write a maximum 2500 words report that provides the following: 1) a summary of a health and safety incident that was reported on in print/online media. 2) an analysis of the relevant health and safety legislation and 3) a conclusion about how this event could have been avoided and what safety measures should be in place to prevent it in the future. Attach or imbed the article/video in your report. The report is due on **JULY 15**.

3) Test 1: Test 1 will cover chapters, lectures, and any other course material covered up until Week 6. This will be an online test that you can write remotely. The test will go live on **JUNE 17** at noon and will be in the format of essay questions. You will have 24 hours to upload your answers on e-class.

4)Test 2: Test 2 will cover chapters, lectures, and any other course material covered from test 1 up until Week 13. This will be an online test that you can write remotely. Students may also wish to review the interactive Academic Honesty module, which can be accessed here: [SPARK course in Moodle](#).
