PREFERRED METHOD TO CONTACT PROFESSOR

The students are expected to contact Professor directly during the virtual office hours via Zoom and the lecture hours in DB 0010 if they have any questions or concerns about this course.

ORGANIZATION OF THE COURSE

Please note that this course depends on in-person teaching and learning. There will be in-person weekly lectures on Tuesday from 7:00 to 10:00 p.m. in DB 0010.

Some of the required assessments of this course, including quizzes and active learning activities (ALAs), will be administered through the eClass course website. However, the midterm exam and the final exam will be held in person.

I will not record my lectures in this term. However, to support your learning in this course, I will post the recordings of my lectures from a previous term, when I taught this course as a remote teaching and learning course, on the eClass course webpage.

Please note that 1) the recordings should be used for educational purposes only and as a means for enhancing accessibility; 2) students do not have permission to duplicate, copy and/or distribute the recordings outside of the class (these acts can violate not only copyright laws but also [FIPPA](#)); and 3) all recordings will be destroyed after the end of classes.

LIVE VIRTUAL OFFICE HOURS

The course instructor will hold weekly virtual office hours via ZOOM on **Wednesday 12:30 to 1:30 pm (Toronto Local Time)**. The students are expected to join the Zoom meetings at scheduled office hours by clicking on the Zoom meeting link posted under the “Live Virtual Office Hours” tab in eClass. The students can ask any course related questions directly to the instructor during ZOOM office hours. You will NOT need meeting ID and password to join the ZOOM office hours. You will NOT need meeting ID and password if you join the ZOOM office hours via eClass.

TECHNICAL REQUIREMENTS FOR TAKING THE COURSE

Several platforms will be used in this course (e.g., eClass, Zoom, MyLab, etc.) through which students will interact with the course materials, the course director / TA, as well as with one another. Please review the syllabus to determine how the class meets (in whole or in part), and how office hours and presentations will be conducted.

Students shall note the following:

- Zoom is hosted on servers in the U.S. This includes recordings done through Zoom.
- If you have privacy concerns about your data, provide only your first name or a nickname when you join a session.
- The system is configured in a way that all participants are automatically notified when a session is being recorded. In other words, a session cannot be recorded without you knowing about it.

Technology requirements and FAQs for Moodle can be found here - <http://www.yorku.ca/moodle/students/faq/index.html>

In addition to stable, higher-speed Internet connection, these students will need a computer/laptop with webcam and microphone, and/or a smart device with these features.

- If you fail to write the midterm examination on the scheduled date, you must contact me during my virtual office hours or virtual lecture hours to explain why you have missed the midterm exam and provide the supporting documents **no later than 2 weeks after the missed midterm**. Please note that the instructor will NOT accept a photocopy or scanned copy of your supporting documents by e-mail. You should submit the supporting documents in eClass. Submitting the MatchForm does NOT guarantee permission to write the deferred exam. Only submissions that meet all requirements will be granted permission. If you are granted deferred standing, you will receive an e-mail from Economics Department with specific exam information. Students whose submissions are not granted will receive a zero for their final exam score.

CLASS ATTENDANCE/PARTICIPATION

The students are expected to attend and actively participate in all lectures. They should feel free to ask questions to the instructor during lectures if they do not understand a concept/model.

ACTIVE LEARNING ACTIVITIES (ALA) via eClass

A set of problem solving and short answer questions, which will be referred to as ALA, will be posted in eClass as active learning activities (ALA) in this course. The students are expected to work on the problem sets and **submit the completed works as a single PDF file** in eClass by the due dates. There will be **5 active learning activities (ALA)** in this course. Each ALA is worth **1 mark**. If a student completes the works of an ALA and submit it in eClass by the due date, he or she will get 1 mark. On the other hand, if a student does not submit an ALA, he or she will get zero. The instructor will only count the marks of the **best 5 ALAs out of 6 ALAs**. **Please note that an ALA will be graded solely based on the completeness of the answers, not based on the correctness of the answers.**
