School of Administrative Studies

## Management Information Systems

ADMS 2511 - Section C

Summer (SE) 2024  
COURSE OUTLINE

### COURSE INFORMATION

Instructor: Dr. Mohsen Javdan  
Email: [mjavdan@yorku.ca](mailto:mjavdan@yorku.ca)

Class Days & Time: Wednesdays 07:00 PM to 10:00 PM  
Class Location: Accolade West Building (ACW) 004

First class: Wednesday, May 08  
Last class: Wednesday, July 31

Send email from inside the YorkU.ca domain only. Email from outside the YorkU.ca domain may be blocked. Always close your email correspondence with your name, student number, and class section.

### LAND ACKNOWLEDGEMENT

York University recognizes that many Indigenous Nations have longstanding relationships with the territories upon which York University campuses are located that precede the establishment of York University. York University acknowledges its presence on the traditional territory of many Indigenous Nations. The area known as Tkaronto has been care taken by the Anishinabek Nation, the Haudenosaunee Confederacy, and the Huron-Wendat. It is now home to many First Nation, Inuit, and Métis communities. We acknowledge the current treaty holders, the Mississaugas of the Credit First Nation. This territory is subject of the Dish with One Spoon Wampum Belt Covenant, an agreement to peaceably share and care for the Great Lakes region ([LA&PS Land Acknowledgement](#)).

### ORGANIZATION OF THE COURSE

All the sessions for this section 2511 (C) will be held in person.

2511 A is online asynchronous except for examinations (midterm and final) which are in person.

Midterm and final exams will be held in-person for all sections.

## CALENDAR COURSE DESCRIPTION AND PREREQUISITES

Overview of information systems and technology: how information systems are selected, designed and managed to provide information needed to run organizations successfully. Topics include the strategic role of information systems; ethical considerations; technology; information systems risks; and security control considerations.

**Prerequisite:** AP/ADMS 1000 3.00. Course credit exclusion: AP/ADMB 2511 3.00.

Students are personally responsible for ensuring that they have the required prerequisites as stated in the course outline or in the course calendar. Students who do not have the prerequisites are at risk of being dropped from the course at any time during the course. The department will not be responsible for refunds resulting from students being dropped from a course due to a lack of appropriate prerequisites.

## TECHNICAL REQUIREMENTS FOR TAKING THE COURSE

Several platforms or software will be used in this course (e.g., eClass (previously known as Moodle), Salesforce, PowerPoint, Adobe Acrobat, Word, Zoom) through which students will interact with the course materials and the course director/TA, as well as with one another.

Please review the technology requirements and FAQs for eClass, Zoom and Moodle:  
<https://lthelp.yorku.ca/95441-instructor-faq/how-do-i-access-my-moodle-course>

Students will need a stable, higher-speed Internet connection to work with the class website and online quizzes and examinations.

Here are some useful links for student computing information, resources and help:

Student guide to eClass and Moodle: <https://lthelp.yorku.ca/moodle>

University Information Technology (UIT), Student Services:  
<https://uit.yorku.ca/student-services/>

Faculty of Liberal Arts and Professional Studies (LA&PS) Welcome to eLearning page has helpful information and quick links to email services, computing, counselling & disability services and other useful resources:  
<https://www.yorku.ca/laps/eso/student-elearning>

To determine Internet connection and speed, there are online tests, such as Speedtest (<https://www.speedtest.net/>), that can be run. If you need technical assistance, please consult the University Information Technology (UIT) Student Services web page. For more specific assistance, please write to [askit@yorku.ca](mailto:askit@yorku.ca).

## COURSE LEARNING OBJECTIVES

The purpose of this course is to provide an overview of the role of information systems in today's organizations and business environment. Specifically, upon completing this course you should be able to:

1. Effectively use IS (Information Systems) terminology in oral and written communication.
2. Explain the strategic role of IS by using Porter's competitive forces and value chain models. Consider how IS are used to respond to competitive forces.
3. Relate the components of business processes to the importance of IS for effective and efficient business process management.
4. Be aware of the main ethical and privacy issues related to IS. Identify basic IS security risks and evaluate different types of IS security controls that could mitigate them.
5. Describe the main technical elements of a company's IT (Information Technology) infrastructure. Relate recent developments in hardware, software, networks, and databases to the IT governance process.
6. Explain the differences between data, information, and knowledge with examples. Discuss the role of data governance in managing information assets.
7. Describe the main characteristics of the different types of eCommerce, social computing, functional area ISs and inter-organizational systems.
8. Provide applied examples of how the use of IT systems facilitates achieving organizational goals.
9. Explain the role of big data and AI (artificial intelligence) for organizations. Discuss how types of business analytics and AI are used by functional areas, considering potential ethical issues of their use.
10. Describe different IS acquisition strategies and explain the roles that a user can play in each stage of the systems acquisition or development process.
11. Develop and implement applications using Salesforce to apply the terms and techniques discussed in the course.

## REQUIRED COURSE TEXT / MATERIALS

**Rainer, Prince, Sánchez-Rodríguez, Splettstoesser and Ebrahimi. 2024.**  
**Introduction to Information Systems: Supporting and Transforming Business,**  
**Sixth Canadian Edition, John Wiley & Sons, Canada, Ltd**

This course is participating in York University's E-Book Program. The E-Book will be available on an opt-in basis and prices will be posted when available.

Any additional required reading materials will be posted on the course web site.

### Warning:

- (1) Photocopying more than 10% of a textbook is illegal and may involve penalties. Do not duplicate textbooks or obtain these photocopies.
- (2) Students are reminded of York University's policy regarding academic dishonesty as outlined in the York student calendars and are expected to comply with those policies in the completion of their work.

### Software requirements:

The free developer edition of Salesforce is required. Instructions for downloading this software are included in the 1a Max Labs assignment.

Access to The Max Labs Project data files, automated grading tool, learning resources and support system (see <https://www.themaxlabsproject.com/> for further information), cost U.S. \$19.99. For further information see the assignments section of this course outline. Note that assignment 1a does not require purchase of the software. Further instructions are available on our eClass/Moodle web site.

### SUMMER (SE) 2024 DROP DATES

Last date to add a course without permission of instructor: May 13, 2024

Last date to add a course with permission of instructor: May 27, 2024

Last date to drop a course without receiving a grade: July 08, 2024

If you withdraw between July 09 and the end of classes (August. 06), the course remains on your transcript without a grade and is notated as "W".

### EVALUATION

<i>Course work</i>	<i>Description and Due Date (See also class website)</i>	<i>Weight</i>
Practice Questions	To be completed during class Best 10 of 11 will be counted. Incentive points would be applied to earn full marks.	5%
Weekly Quizzes	Individual multiple-choice quizzes to be completed online, submitted before 11:59 PM Monday of each week. Refer to individual sessions for due dates. The best 10 of 11 will be counted.	10%
Max Lab Assignments	Max Labs Assignment Lab 1a, due May 31 Max Labs Assignment Lab 1b, due June 07 Max Labs Assignment Lab 2a, due July 05 Max Labs Assignment Lab 2b, due July 12 Max Labs Assignment Lab 3a, due July 19 Max Labs Assignment Lab 3b, due July 26	18%  (3% each)
Midterm Examination	Session 7, Common Midterm Examination Covers Sessions 1 through 5. <b>Midterm Exam Date:</b> (Time and date subject to room availability) <b>Friday, June 28 at 04:00 PM.</b>	27%

	<b>Location: TBA</b> Students who miss the midterm examination may write the alternative examination with appropriate documentation. <b>Alternative midterm exam date:</b> (Time and date subject to room availability) <u>Thursday, July 04 at 06:00 PM.</u> <b>Location: TBA</b>	
Final Examination	Cumulative, covering the entire course. During regular examination schedule, August 08-15 DATES AND TIMES TBA	40%
Total		100%

### *Practice questions*

Practice questions will be completed in class and will be selected by the instructor. Practice questions details for each lecture will be provided on the course web site. Attending class and submitting all practice questions in class will grant the student 1 raw mark per session. 10 of 11 sessions will be counted and allocated to 5% of the course mark. Students must attend the whole class to be eligible for this mark. There is no make up for missed practice questions.

### *Online weekly quizzes*

Weekly quizzes are available on our eClass course website. There will be no make up for missed quizzes. Students registered with Counselling and Disability Services are entitled to additional time for these quizzes and should contact the instructor at the beginning of the course.

### *Max Labs Assignments*

To complete the six Max Labs Project assignments the developer edition of Salesforce.com will be used (available from the Salesforce website). Access to data files, auto grading and support materials for the Max Labs Project are available from the Max Labs web site (cost US \$19.99), and details on how to obtain these resources are part of Lab 1 b.

The process for signing up for Salesforce.com as well as how to complete the lab assignments will be posted on eClass. There is a penalty of 10% for each day late.

### *Midterm exam*

If the midterm examination is missed due to an illness or other extenuating circumstance, the student should supply appropriate supporting documentation to the instructor no later than the next business day after the missed midterm in order to obtain permission to write the midterm at the alternative date. **IMPORTANT:** students who miss both the originally scheduled examination date and the accommodated date will receive a grade of zero for the midterm. Students who require accommodated time for examinations contact Counselling and Disability Services for a booking at least one month prior to the date of the examination.

### *Missing other coursework*

If a student misses any other coursework, they will receive a grade of “0” for that piece of course work unless discussed and approved with the course director with appropriate documentation prior to the due date.

## LATE WORK POLICY

DO proactively speak to the instructor about how to meet or adjust assignment deadlines. Late work penalty for the submissions is 10% per calendar day.

### *Academic honesty and integrity*

Here at York University, we strive to maintain academic integrity to the highest extent possible. Please familiarize yourself with the meaning of academic integrity by completing York University’s SPARK [Academic Integrity module](#) before completing your first quiz, assignment or examination. Breaches of academic integrity range from cheating to plagiarism (i.e., the improper crediting of another’s work or the representation of another’s ideas as your own, for example). All instances of academic dishonesty in this course will be reported to the appropriate university authorities, and can be punishable according to the [Senate Policy on Academic Honesty](#).

### *Course Policy on Student Use of Generative Artificial Intelligence (AI)*

Students may only use generative artificial intelligence (AI) tools in this course so long as the following two conditions are met:

- Specific generative AI tools are used in accordance with the written guidelines provided for each assessment or activity, and
- The use of generative AI is documented and cited following citation instructions given in the [APA](#).

Use of generative AI outside these two conditions will constitute academic dishonesty under York University’s [Senate Policy on Academic Honesty](#). As a student in this course, it is your responsibility to understand when and how generative AI tools can be used to complete your assessments and activities. If you do not know whether an online resource or tool can be used in this course, please contact your instructor for guidance.

### *About the Grading Scheme*

Refer to course web site and details of assignments posted on the course eClass web site.

Grades submitted by an instructor are subject to review by the teaching unit in which the course is offered and by the Faculty Council or Faculty Committee on Academic Policy and Planning. Final course grades may be adjusted to conform to program or Faculty grades distribution profiles. Normally, grades appear on grade reports and transcripts as soon as they are submitted to the Registrar’s Office. The grading scheme for this course conforms to the 9-point system used in undergraduate programs at York University. For

a full description of the York grading system, visit the York University academic calendar at:

<https://calendars.students.yorku.ca/2022-2023/grades-and-grading-schemes>

Grade	Grade Point	Percent Range	Description
A+	9	90-100	Exceptional
A	8	80-89	Excellent
B+	7	75-79	Very Good
B	6	70-74	Good
C+	5	65-69	Competent
C	4	60-64	Fairly Competent
D+	3	55-59	Passing
D	2	50-54	Marginally Passing
E	1	(Marginally below 50%)	Marginally Failing
F	0	(Below 50%)	Failing

## EXPANDED COURSE DESCRIPTION

This course provides an overview of information systems and how such systems are selected, designed and managed to provide information needed to run organizations successfully. Students will consider the strategic role of information technology and systems within organizations and in a competitive business environment, as well as the ethical implications of information systems. This course will examine the technical foundations of information systems, their impact on organizational design, management, and their impact on knowledge accumulation and decision-making. Information systems risks, security and control issues are also covered.

## ORGANIZATION OF THE COURSE

<i>Session Description and Learning Objectives</i>	<i>Readings, Assignments and Quizzes</i>
<p><b>Session 1 - May 08</b>  <i>Information Systems and the Modern Organization</i>  <u>Learning Objectives:</u></p> <ul style="list-style-type: none"> <li>• Review course evaluation methods, assignment structure, Max Labs role and the nature of plagiarism.</li> <li>• Identify the reasons you need to be an informed User.</li> </ul>	<p><b>READ Chapter 1</b>   <i>Complete Practice Questions- Details on eClass</i></p>

<ul style="list-style-type: none"> <li>• Relate the difficulty of managing information resources to the process of interacting with the information systems department.</li> <li>• Describe modern information technology jobs.</li> <li>• Explain the nature and purpose of data items, information, and knowledge and how they are used.</li> <li>• Examine the basic components of an information system and interrelationships among components.</li> <li>• Explain how IT affects organizations, managers, employees, and society.</li> </ul>	<p><i>Reminder: Do Quiz 1, Due Before 11:59 PM Friday, May 31</i></p>
<p><b>Session 2 - May 15</b>  <i>Global Information Systems: Concepts, Management and Strategy</i>  <u>Learning Objectives:</u></p> <ul style="list-style-type: none"> <li>• Discuss the importance of planning for information technology, and the link between IT planning, business planning and strategy.</li> <li>• Explain business process management and the role IT plays as an enabler.</li> <li>• Examine business pressures and how organizations respond to them with the use of IT.</li> <li>• Explain the role of IT in building competitive advantage using Porter's five forces model and value chain model.</li> <li>• Assess which strategies for competitive advantage could match selected organizations.</li> <li>• Discuss the alignment between business strategy and IT and the role of information technology governance.</li> </ul>	<p><b>READ Chapter 2</b></p> <p><i>Complete Practice Questions- Details on eClass</i></p> <p><i>Reminder: Do Quiz 2, Due Before 11:59 PM Friday, May 31</i></p>
<p><b>Session 3 - May 22</b>  <i>Ethics, Privacy, Information Security and Controls</i>  <u>Learning Objectives:</u></p> <ul style="list-style-type: none"> <li>• Discuss the role of ethics in the corporate environment and the major ethical issues raised by using information systems.</li> <li>• Describe privacy and explain how IT affects privacy.</li> <li>• Discuss privacy of information and anti-spam legislation in Canada and the implications for IT.</li> <li>• Explain the main threats and risks to information security and information systems.</li> <li>• Describe the purpose and nature of enterprise risk management and how it is used to develop the different types of IS security controls, providing examples of each.</li> <li>• Link controls to the threats they could mitigate or prevent.</li> <li>• Explain the roles of business continuity planning and of information systems auditing.</li> </ul>	<p><b>READ Chapters 3 and 4</b></p> <p><i>Complete Practice Questions- Details on eClass</i></p> <p><i>Reminder: Do Quiz 3, Due Before 11:59 PM Friday, May 31</i></p>

<ul style="list-style-type: none"> <li>• Identify behavioral and computer-based actions you could take to protect your information assets using a risk-based approach.</li> </ul>	
<p><b>Session 4 - May 29</b>  <i>Data, Information and Knowledge Management</i>  <u>Learning Objectives:</u></p> <ul style="list-style-type: none"> <li>• Describe the difficulties of managing data and how they can be mitigated by data governance.</li> <li>• Explain the characteristics of relational database management systems and their role in information reporting.</li> <li>• Use the data hierarchy and build E-R (entity relationship) diagrams.</li> <li>• Provide an example of an SQL query; use E-R diagrams and explain how normalization is accomplished using database joins.</li> <li>• Discuss methods and strategies for effectively managing big data.</li> <li>• Explain the nature of big data, data warehouses and data marts, their advantages, disadvantages, and how they facilitate business analytics.</li> <li>• Explain the knowledge management system cycle and describe the role of knowledge management systems in managing explicit and tacit knowledge.</li> </ul>	<p><b>READ Chapter 5, including the Appendix.</b></p> <p><i>Complete Practice Questions- Details on eClass</i></p> <p><i>Reminder: Do Quiz 4, Due Before 11:59 PM Monday, June 03</i></p> <p><b>Max Labs Assignment Lab 1a due on Friday, May 31, at 11:59 PM</b></p>
<p><b>Session 5 - June 05</b>  <i>Managing Computer Hardware and Software</i>  <u>Learning Objectives:</u></p> <ul style="list-style-type: none"> <li>• Discuss the computer hierarchy and explain its impact on IT usage.</li> <li>• Define the main hardware and software components of an information system and consider how they are used for business applications.</li> <li>• Explain the characteristics and uses of different types of information systems storage.</li> <li>• Discuss the differences between system software and application software with examples.</li> <li>• Discuss the advantages and disadvantages of open-source software.</li> <li>• Describe the types of cloud computing, providing examples of how they are used for differing enterprise computing goals.</li> <li>• Discuss the benefits of and concerns with cloud computing.</li> <li>• Examine strategic issues related to hardware, software and cloud computing.</li> </ul>	<p><b>READ Technology Guides 1, 2 and 3</b></p> <p><i>Complete Practice Questions- Details on eClass</i></p> <p><i>Reminder: Do Quiz 5, Due Before 11:59 PM Monday, June 10</i></p> <p><b>Max Labs Assignment Lab 1b due on Friday, June 07, at 11:59 PM</b></p>

<p><b>Session 6 - June 12</b>  <i>Harnessing Telecommunications Networks, Web 2.0 and Social Computing</i>  <u>Learning Objectives:</u></p> <ul style="list-style-type: none"> <li>• Describe the hardware, software and standards that comprise modern networks</li> <li>• Explain the telecommunications and network technologies that comprise a telecommunications system and that support the Internet, intranets and extranets</li> <li>• Discuss the origins and potential future of the Internet</li> <li>• Discuss the main applications of network technologies in businesses for the purposes of discovery, communication, collaboration and education</li> <li>• Describe Web 2.0 tools and types of sites</li> <li>• Describe the benefits and risks of social commerce and methods used for shopping socially</li> <li>• Explain the impact of social networking on organizations, including innovative uses for marketing, customer service and human resources</li> </ul>	<p><b>READ Chapters 6 and 9</b></p> <p><i>Complete Practice Questions- Details on eClass</i></p> <p><i>Reminder: Do Quiz 6, Due Before 11:59 PM Monday, June 17</i></p>
<p><b>Summer Break - June 18 to 21</b></p>	<p><b>No classes</b></p>
<p><b>Session 7 - Midterm exam (Covering Sessions 1 to 5 inclusive), (Time and date subject to room availability) Friday June 28 at 04:00 PM.</b>  <b>Location: TBA.</b></p> <p>Students who miss the midterm examination may write the <b>alternative</b> examination with appropriate documentation on (Time and date subject to room availability) <b>Thursday, July 04 at 06:00 PM.</b> (Location TBA)</p> <p>See “About the grading scheme” section of this course outline for more details.</p>	<p><i>DO Practice midterm exam and read the study tips</i></p>
<p><b>Session 8 - July 03</b>  <i>Utilizing E-business and E-Commerce; Wireless Technologies</i>  <u>Learning Objectives: E-business and E-Commerce</u></p> <ul style="list-style-type: none"> <li>• Describe and provide examples of the different types of e-commerce, their mechanisms and e-commerce business models for organizations, consumers and employees.</li> <li>• Explain the different types of electronic payment methods and evaluate their risks and benefits.</li> </ul>	<p><b>READ Chapters 7 and 8</b></p> <p><i>Complete Practice Questions- Details on eClass</i></p> <p><i>Reminder: Do Session 8 Quiz 7, Due Before 11:59 PM Monday, July 08</i></p> <p><b>Max Labs Assignment</b></p>

<ul style="list-style-type: none"> <li>• Describe ethical and legal issues associated with e-business.</li> </ul> <p><i>Wireless Technologies</i></p> <ul style="list-style-type: none"> <li>• Describe and evaluate the main types of wireless transmission media and networks.</li> <li>• Describe the major threats to wireless networks and how they could be mitigated.</li> <li>• Examine the Internet of Things and assess which sensors could be used.</li> <li>• Consider the effects of global positioning systems on the application of mobile computing and mobile commerce.</li> </ul>	<p><b>Lab 2a due on Friday, July 05, at 11:59 PM</b></p>
<p><b>Session 9 - July 10</b> <i>Using Information Systems within the Organization</i></p> <p><u>Learning Objectives:</u></p> <ul style="list-style-type: none"> <li>• Review the different types of information systems and their users.</li> <li>• Examine the benefits and limitations of transaction processing systems, functional area information systems, and ERP (enterprise resource planning) and ERP II systems.</li> <li>• Provide examples of these systems for typical organizations, stating how they would be used.</li> <li>• Discuss functional area information systems' reports and their uses.</li> <li>• Explain how ERP supports cross-functional business processes.</li> </ul>	<p><b>READ Chapter 10</b></p> <p><i>Complete Practice Questions- Details on eClass</i></p> <p><i>Reminder: Do Session 09 Quiz 8, Due Before 11:59 pm Monday, July 15</i></p> <p><b>Max Labs Assignment Lab 2b due on Friday, July 12, at 11:59 PM</b></p>
<p><b>Session 10 - July 17</b> <i>Customer relationship management, supply chain management and information technology</i></p> <p><u>Learning Objectives:</u></p> <ul style="list-style-type: none"> <li>• Explain the basic concepts of CRM (customer relationship management) and SCM (supply chain management).</li> <li>• Describe the functions and business applications of multiple types of CRM.</li> <li>• Describe problems along the supply chain and how IT can be used to solve them.</li> <li>• Describe EDI (electronic data interchange) and discuss its advantages and disadvantages.</li> <li>• Explain how EDI, extranets and portals support SCM.</li> </ul>	<p><b>READ Chapter 11</b></p> <p><i>Complete Practice Questions- Details on eClass</i></p> <p><i>Reminder: Do Session 10 Quiz 9, Due Before 11:59 PM Monday, July 22</i></p> <p><b>Max Labs Assignment Lab 3a due on Friday, July 19, at 11:59 PM</b></p>
<p><b>Session 11 - July 24</b> <i>The Power of Business Analytics and Artificial Intelligence</i></p>	<p><b>READ Chapter 12 and Technology Guide 4</b></p>

<p><u>Learning Objectives:</u></p> <ul style="list-style-type: none"> <li>• Describe roles performed by managers and explain the functions that IT plays in supporting decision making.</li> <li>• Describe the business analytics process and its supporting pillars.</li> <li>• Provide the statistical procedures used to facilitate descriptive, predictive, and prescriptive analytics and relate these to effective use of business intelligence.</li> <li>• Describe tools used for data presentation that support business analytics and business intelligence (dashboards and data visualization technologies).</li> <li>• Contrast the capabilities of natural and artificial intelligence (AI) systems and the impact on organizations.</li> <li>• Discuss the advantages, disadvantages and provide examples of machine learning, deep learning, neural networks, and other types of artificial intelligence.</li> </ul>	<p><i>Complete Practice Questions- Details on eClass</i></p> <p><i>Reminder: Do Session 11 Quiz 10, Due Before 11:59 pm Monday, July 29</i></p> <p><b>Max Labs Assignment Lab 3b due on Friday, July 26, at 11:59 PM</b></p>
<p><b>Session 12 - July 31</b>  <i>Acquiring Information Systems and Applications</i>  <u>Learning Objectives:</u></p> <ul style="list-style-type: none"> <li>• Justify the importance of information technology planning.</li> <li>• Describe the processes used to justify IT investments.</li> <li>• Discuss the advantages and disadvantages of eight strategies for acquisition of IT applications.</li> <li>• Describe the six processes in the traditional systems development process and discuss its advantages and disadvantages.</li> <li>• Evaluate the advantages and disadvantages of alternative systems development methods and tools.</li> <li>• Decide which acquisition method is best for different requirements or businesses.</li> </ul>	<p><b>READ Chapter 13</b></p> <p><i>Complete Practice Questions- Details on eClass</i></p> <p><i>Reminder: Do Session 12 Quiz 11, Due Before 11:59 pm Monday, August 05</i></p>
<p><b>Session 13 -- Final Examination</b>  <b>During regular examination schedule, August 08 to 15, Cumulative: Covering Sessions 1 - 12</b>  <b>See "Relevant university regulations" section of this course outline for more details.</b></p>	<p><b><u>DO</u> Practice final exam and weekly practice questions</b></p>

## RELEVANT UNIVERSITY REGULATIONS

Should there be any updates to these regulations, you can review the most recent Faculty of Liberal Arts and Professional Studies regulations, which are used by SAS (the School of Administrative Studies) at:

<https://sas.laps.yorku.ca/students/school-policies/>

**Deferred Exams:** Deferred standing may be granted to students who are unable to write their final examination at the scheduled time or to submit their outstanding course work on the last day of classes. Details can be found at:

<https://www.yorku.ca/laps/sas/academic-resources/deferred-exam-requests/>

Any request for Deferred Standing Agreement (DSA) on medical grounds must comply with university regulations. As of the writing of this outline the requirement for an Attending Physician's Statement (APS) form had been suspended. If it resumes, the University will inform you of such resumption, and you would include an Attending Physician's Statement form; a "Doctor's Note" will not be accepted.

DSA Form: [http://www.registrar.yorku.ca/pdf/deferred\\_standing\\_agreement.pdf](http://www.registrar.yorku.ca/pdf/deferred_standing_agreement.pdf)

Attending Physician's Statement form:

<https://secure.students.yorku.ca/pdf/attending-physicians-statement.pdf>

In order to apply for deferred standing, BCom students must register through the School's website at: <https://www.yorku.ca/laps/sas/academic-resources/deferred-exam-requests/>

followed by handing in a completed DSA form and supporting documentation directly to the main office of the School of Administrative Studies (282 Atkinson) and adding your ticket number to the DSA form. The DSA and supporting documentation must be submitted no later than five (5) business days from the date of the exam. These requests will be considered on their merit and decisions will be made available by logging into the above-mentioned link. No individualized communication will be sent by the school to the students (no letter or e-mails).

Students **who submit a request in compliance with university regulations** or with approved DSA will be able to write their deferred examination during the school's deferred examination period. No further extensions of deferred exams shall be granted. The format and covered content of the deferred examination may be different from that of the originally scheduled examination. The deferred exam may be closed-book, cumulative and comprehensive and may include all subjects/topics of the textbook whether they have been covered in class or not. Any request for deferred standing on medical grounds must include an Attending Physician's Statement form; a "Doctor's Note" will not be accepted. School of Administrative Studies deferred exams for the Summer 2024 term will be scheduled for Fall 2024.

**Academic Honesty:** The Faculty of Liberal Arts and Professional Studies considers breaches of the Senate Policy on Academic Honesty to be serious matters. The Senate Policy on Academic Honesty is an affirmation and clarification for members of the University of the general obligation to maintain the highest standards of academic honesty. As a clear sense of academic honesty and responsibility is fundamental to good scholarship, the policy recognizes the general responsibility of all faculty members to foster acceptable standards of academic conduct and of the student to be mindful of and abide by such standards. Suspected breaches of academic honesty will be investigated, and charges shall be laid if reasonable and probable grounds exist.

Students should review the York Academic Honesty policy for themselves at: <https://secretariat-policies.info.yorku.ca/policies/academic-honesty-senate-policy-on/>

Students might also wish to review the interactive on-line Tutorial for students on academic integrity, at: <https://spark.library.yorku.ca/academic-integrity-what-is-academic-integrity/>

**Grading Scheme and Feedback Policy:** The grading scheme (i.e. kinds and weights of assignments, essays, exams, etc.) shall be announced, and be available in writing, within the first two weeks of class, and, under normal circumstances, graded feedback worth at least 15% of the final grade for Fall, Winter or Summer Term, and 30% for 'full year' courses offered in the Fall/Winter Term be received by students in all courses prior to the final withdrawal date from a course without receiving a grade, with the following exceptions:

*Note: Under unusual and/or unforeseeable circumstances which disrupt the academic norm, instructors are expected to provide grading schemes and academic feedback in the spirit of these regulations, as soon as possible.* For more information on the Grading Scheme and Feedback Policy, please visit:

<https://secretariat-policies.info.yorku.ca/policies/grading-scheme-and-feedback-policy/>

**Tests and Exams - the 20% Rule:** For all Undergraduate courses, except those which regularly meet on Friday evening or on a weekend, tests or exams worth more than 20% will not be held in the two weeks prior to the beginning of the official examination period. For further information on the 20% Rule, please visit:

<http://secretariat-policies.info.yorku.ca/policies/limits-on-the-worth-of-examinations-in-the-final-classes-of-a-term-policy/>

**Reappraisals:** Students may, with sufficient academic grounds, request that a final grade in a course be reappraised (which may mean the review of specific pieces of tangible work). Non-academic grounds are not relevant for grade reappraisals; in such cases, students are advised to petition to their home Faculty. Students are normally expected to first contact the course director to discuss the grade received and to request that their tangible work be reviewed. Tangible work may include written, graphic, digitized, modeled, video recording or audio recording formats, but not oral work. Students need to be aware that a request for a grade reappraisal may result in the original grade being raised, lowered or confirmed. For reappraisal procedures and information, please visit the Office of the Registrar site at:

<http://myacademicrecord.students.yorku.ca/grade-reappraisal-policy>

**Accommodation Procedures:** LA&PS students who have experienced a misfortune or who are too ill to attend the final examination in an ADMS course should not attempt to do so; they must pursue deferred standing. Other students should contact their home Faculty for information. For further information, please visit:

<http://ds.info.yorku.ca/academic-support-accomodations/>

**Religious Accommodation:** York University is committed to respecting the religious beliefs

and practices of all members of the community and making accommodations for observances of special significance to adherents. For more information on religious accommodation, please visit:

<https://w2prod.sis.yorku.ca/Apps/WebObjects/cdm.woa/wa/regobs>

### **Academic Accommodation for Students with Disabilities (Senate Policy)**

The nature and extent of accommodation shall be consistent with and supportive of the integrity of the curriculum and of the academic standards of programs or courses. Provided that students have been given sufficient notice about their accommodation needs, instructors shall take reasonable steps to accommodate these needs in a manner consistent with the guidelines established hereunder. For more information, please visit the Counselling and Disability Services website at:

<https://secretariat-policies.info.yorku.ca/policies/academic-accommodation-for-students-with-disabilities-guidelines-procedures-and-definitions/>

York's disabilities offices and the Registrar's Office work in partnership to support alternate exam and test accommodation services for students with disabilities at the Keele campus. For more information on alternate exams and tests please visit:

<http://www.yorku.ca/altexams/>

Please alert the Course Director as soon as possible should you require special accommodation.

Effective date: May 08, 2024.
