ACADEMIC HONESTY & INTEGRITY

Academic Honesty: Students are reminded to maintain standards of academic integrity to the highest extent possible. Common examples of breaches of academic honesty and integrity include cheating, plagiarism, falsification, and aiding and abetting others in such activities. Please familiarize yourself with the meaning of academic integrity at York by completing the interactive on-line Tutorial for students at:

<https://spark.library.yorku.ca/academic-integrity-what-is-academic-integrity/>

Suspected breaches of academic honesty will be investigated and pursued; significant penalties will be applied when a breach has been found to have occurred.

Following these simple rules will help you avoid breaches of academic honesty:

- Complete your work well in advance of the deadline
- Write your entire work yourself (each and every word!) from the ground up
- DO NOT: "consult" others or search online for "ideas"
- DO NOT use tutoring or editing services to prepare your work

The Faculty of Liberal Arts and Professional Studies considers breaches of the Senate Policy on Academic Honesty to be serious matters. As per the Policy, “The Senate Policy on Academic Honesty is an affirmation and clarification for members of the University of the general obligation to maintain the highest standards of academic honesty”. Please familiarize yourself with York’s Senate Policy Academic Honesty:

<http://secretariat-policies.info.yorku.ca/policies/academic-honesty-senate-policy-on/>

Turnitin: To promote academic integrity in this course, students may be required to submit their online submissions of written work through Turnitin (via the course eClass) for a review of textual similarity and the detection of possible plagiarism. In so doing, students will allow their material to be included as source documents in the Turnitin.com reference database, where they will be used only for the purpose of detecting plagiarism. The terms that apply to the University’s use of the Turnitin service are described on the Turnitin.com website.

Policy on Use of Generative AI Tools: **Unless explicitly allowed in a specific activity, students are not permitted to use generative artificial intelligence (AI) in ADMS** and DEMC courses. Submitting any work created through the use of generative AI tools will be considered a violation of York University’s Senate Policy on Academic Honesty. If you do not know whether an online resource or tool can be used in this course, please check the materials posted for your section and contact your instructor for guidance. For more information, please review [AI Technology & Academic Integrity: Information for Students](#).
